3. Spectrum

# CONCEPT NOTE

The upcoming National Conference on Human Rights and Gender Justice, 2020 with the Legal Aid Awards will reflect and take stock of how far India has come as a country since the promulgation of the Democratic Constitution in 1950. It will envision an India where Human Rights are protected, respected and fulfilled; Gender Justice is observed and Legal Aid is available to all. The Conference will bring various stakeholders and youth to take stock and envision this future together; and to explore how to support and realize the opportunities presented by the Youth Dividend through Sustainable Development Goals. 2019 marks the 71st Anniversary of the Universal Declaration of Human Rights (UDHR) adopted on 10th December 1948, the historic document set the Fundamental Rights that would be protected internationally, recognizing Human Rights as the foundation for freedom, justice and peace everywhere.

Through this Conference, we aim to highlight the gap created between genders and how this gap in many ways violates the Human Rights, as a result of which there comes difficulties in providing Legal Aid. This National Conference on Human Rights and Gender Justice is organized with an aim to bring together academicians, students, human rights activists and other intellectuals on one platform to discuss the various issues concerning human rights and to discuss the measures to curb such issues.

Knowledge Steez has been actively organizing social awareness and legal aid workshops throughout the country and this conference, will be the 4th edition to it. Through this conference we aim to provide the participants with an option to join us in our campaigns and hence the conference will not merely be limited to on table discussions, rather it will provide various options to implement the discussions on field.

# THEME

Human rights are the basic rights and freedom that belong to every person in the world, from birth till death. They apply regardless of where you are from, what you believe or how you choose to live your life. They can never be taken away, although they can sometimes be restricted – for example, if a person breaks the law, or in the interests of national security. But sadly due to the increasing number of gender inequality, and since these basic rights are based on shared values like dignity, fairness, equality, respect and independence, there arises another problem of providing legal aid to everyone. These values are defined and protected by law. This Conference aims to bring together innovative academics and industrial experts in these fields to a common forum and also envision to deliberate on feasible approaches to the above mentioned facets for better Development and Implementation of future Laws and policies for the stakeholders.
